

## **PROPOSAL FOR THE PERSONAL WEBSITE:**

**STUDENT:** Emmanuel Kachuchuru

**1. Title: The Wonders of Math & Science**

**2. Purposes:**

2.1. To emphasize the importance of Math and Science to young learners. Devotionals to emphasize the importance of creating relationship with their creator will also be available. Our slogan will be "Know & Love Math!! Know & Love Science!! Know and Love God!!

2.2. There is lack of skilled educators to teach Science and Math in our schools. Young people love going online for very good reasons of accessing information to inform and educate them. This website will fill the gap and greatly help our youth to incorporate Math and Science into their daily activities.

**3. Audience:**

3.1. 5-7 graders in the age group of 11-13 years old

3.2. Secondary School students in the age group of 14-17 years old
